

ISSIP/NSF Workshop Second Day

Topics and Groups

You can work with and contribute to more than one group

Each group has a lead person responsible for assigning note taking and creation of presentation (15 minutes or so, be prepared for Q&A)

What we know now?

What is possible/needed/hoped for/critical success factors in the future?

What is the gap?

How to fill the gap?

Opportunities for academe/industry research partnership

Challenges, risks and mitigation..

What is the possible roles of the NSF in this?
